

# Simplify Your Data Management and Security with Cisco

**Key Benefits**

- Unified data management and protection—core, cloud and edge
- Fast ransomware discovery and recovery
- More productive data for the business
- Simple, reliable and predictable deployment
- 150% ROI in three years<sup>1</sup>
- Exceptional experience from Cisco

As organizations navigate new digital-first normals in the face of rising data volumes and cyberattacks, the Cohesity–Cisco partnership empowers enterprises to eliminate **mass data fragmentation**, improve data security and reduce IT cost and complexity. Jointly developed Cohesity–Cisco solutions simplify data management—backup, archiving, disaster recovery, file and object services, dev/test and analytics—and unlock limitless value from data. Integrated, Cohesity + Cisco SecureX is data security, simplified. This first-of-its-kind integrated data protection solution with SecureX accelerates time to discovery, investigation and remediation of ransomware attacks.

Cohesity-Cisco offerings provide hyperscale simplicity, multicloud agility and cyber resiliency while delivering exceptional Cisco experience end to end. Together, Cohesity and Cisco consolidate data and security silos across on-premises, cloud and edge sites, streamline IT and security operations and keep your business secure.

## Cyber Resilient Next-gen Data Management for Hybrid/Multicloud

Cohesity and Cisco advance your data and security initiatives with an integrated platform for use cases that protect, repurpose and unlock value from data anywhere.

1. Forrester Consulting, "Forrester Total Economic Impact" of Cohesity on Cisco UCS," November 2020.  
 2. Simple on-ramp to joint Cohesity–Cisco solutions.

## Certified Systems and Simple Engagement

Cohesity software running on certified Cisco UCS C-Series, S-Series, and X-Series configurations is integrated with Cisco Intersight, Cisco HyperFlex and Cisco SecureX. Configuration and deployment is a snap thanks to available Cisco Validated Designs. For an optimal purchasing, deployment and support experience, the Cohesity-Cisco solutions are available through the Cisco SolutionsPlus program and orderable directly from Cisco's Global Price List. Support [options](#) from Cisco include Cisco Solution Support for primary point-of-contact support.

## Organizations Achieve Quantitative and Qualitative Benefits

Easy to use, Cohesity-Cisco solutions deliver unlimited scale, business agility and enterprise-grade security for:

- **Lower TCO** – Benefit from true global deduplication and impressive capacity efficiency in a pay-as-you-grow model combined with fast ingest and non-disruptive upgrades
- **Simplified management** – Control all data through a single UI, speed actionable search for data across sources and locations and deliver critical data security context to teams with unified visibility and automation
- **Risk mitigation** – Reduce attack surfaces with a singular platform and accelerate ransomware discovery, investigation and recovery, including instant mass restore at scale, to any point in time

The [Forrester Total Economic Impact of Cohesity on Cisco UCS](#) reveals customers are achieving both quantitative and qualitative benefits. In addition to an overall solution return on investment (ROI) of 150% in three years, the joint solution reduces the risk of a successful ransomware attack worth millions of dollars, improves disaster recovery processes and reduces compliance and legal risk.

“

“We are getting more work done than ever, which I attribute to both our talented team and the very strategic investments we’ve made in Cisco and Cohesity. There was already 100% consensus among our engineers that the Cohesity-Cisco solution worked reliably, was easy to use, and we were all more productive with it. Now, there’s also agreement that Cohesity is the best solution to combat ransomware attacks.”

John Gaede, Director of Information Services, Sky Lakes Medical Center
